

City of Largo Agenda Item 3

Meeting Date
07/17/18

Presenter: Chuck Mura, P.E., Senior Engineer

Department: EN – Engineering Services

TITLE:

AWARD OF CONTRACT NO. 18-C-638, BASIN 15 MANHOLE REHABILITATION PROJECT, TO ENGINEERED SPRAY SOLUTIONS, LLC, IN THE AMOUNT OF \$217,100

The purpose of this agenda item is to obtain City Commission approval for the award of the Basin 15 Manhole Rehabilitation contract to Engineered Spray Solutions, LLC, in the amount of \$217,100. In January 2017, the City hired the engineering consultant firm of McKim and Creed to perform an inflow and infiltration (I&I) evaluation of the Lift Station 15 sanitary sewer collection system basin. In general, the basin is bounded by Indian Rocks Road on the west, Trotter Road on the east, Wilcox Road on the south, and 10th Avenue SW on the north. The evaluation included the inspection of approximately 52,000 linear feet of gravity sewer pipe, 1,139 laterals and 226 manholes. The results of the evaluation identified 6,580 linear feet of main line pipe and 123 service laterals that will require lining. The evaluation also recommended that 34 manholes be rehabilitated.

On May 18, 2018 the City advertised the Basin 15 Manhole Rehabilitation contract for competitive bid. The City received two submittals by the bid deadline of June 19, 2018. Please see the bid tabulation on page 2. TV Diversified did not meet the City’s bid specification requirements and was disqualified. Engineered Spray Solutions, LLC met those requirements and is recommended for award. They have not performed work for the City in the past. However, City staff has contacted references listed in the bid submittal, and they indicated that Engineered Spray Solutions, LLC’s work had been satisfactory and they would be willing to issue work to them in the future. Engineered Spray Solutions, LLC has the ability and the resources to perform the services required in this contract.
