

City of Largo Agenda Item 2

Meeting Date
08/14/18

Presenter: **Joan Byrne, Recreation, Parks & Arts Director**

Department: **RP – Recreation, Parks & Arts**

TITLE:

PRESENTATION OF LARGO RECREATION, PARKS AND ARTS MASTER PLAN UPDATE

As a nationally accredited agency, the Largo Recreation, Parks and Arts Department is required to meet 151 standards including having an approved Department Master Plan. To meet this required standard, the Department must provide evidence of periodic review of the plan by the appropriate governing body. The Department Master Plan was originally approved by the City Commission in 2012 and has been recently updated as part of a regular review process established by the Department.

The Plan update provides a detailed inventory of all department assets, identifies existing service levels, compares department assets to national and regional standards, identifies future needs and improvements and outlines an action plan for implementation. It also reviews accomplishments since the last plan update.

The Department is seeking City Commission input for the updated Master Plan document. The document is provided to the City Commission electronically and will be available in the City Commission Office.
