The City of Largo has been using AT&T Mobility for cellular voice telephone services since October, 2013. The initial cellular voice contract was for three years and currently the City is under the terms and conditions of the state contract, which is in effect until January 10, 2022. This cellular voice service is used by all City Departments. The rate is \$0.06 per minute per call and provides several base cellular phone models at no cost to the City. These services are also used by the Police Department as an emergency secondary connectivity method in case of failure by the primary cellular data services provider.
