

Pumping Variance Application

City of Largo, Environmental Services Department
Environmental Control Program
5100 150th Ave. North
Clearwater, FL 33760
(727) 518-3082

Section 23-120 of the City of Largo Ordinance allows food service facilities utilizing a grease interceptor to apply for a variance to the mandated thirty (30) day pump out requirement.

Food Service Facilities applying for a pumping variance are required to contact the Environmental Services Department and the waste hauler to schedule a full pump out inspection. **An Environmental Specialist must be present during the pump out to verify the condition of the interceptor.**

A variance of up to 90 days maximum may be granted depending on the condition of the interceptor and depth of grease. If the grease interceptor at any time fails inspection, the variance will be revoked.
